

NURSING

ASSOCIATE OF SCIENCE

About the Program

The associate of science in nursing (ASN) program is part of a 130-year tradition of excellence in nursing education at Aultman. The program combines classroom instruction; hands-on experiences in skills and simulation laboratories; and clinical placements in a variety of settings to prepare you for the national licensing exam (NCLEX) to become a registered nurse (RN).

Career Pathways

As an RN, you can work in a variety of clinical settings: hospitals, physician offices, clinics, surgery centers, and long-term care and rehabilitation facilities.

The ASN curriculum design also provides for progression to our BSN Completion (BSN-C) program, which allows you to broaden your career opportunities and further your education to become a nurse anesthetist, nurse practitioner, nurse leader or educator.

Admission Requirements

To be considered for admission, first time college students must have a minimum 3.0 high school GPA (or equivalent), an ACT score of 20, SAT score of 1030, or qualifying ACCUPLACER Next Gen scores, along with a composite TEAS score of 58.7% and at least 58.7% in each of the four sections. Transfer students must have at least 6 completed college credit hours and a minimum 2.7 GPA based on their most recent college transcript.

Application Process

Interested students will need to submit a completed application online at aultmancollege.edu and submit official high school and college transcripts.

Full-time

Direct-entry ASN program

Program admits fall and spring semesters. Check our website for application deadline.

Accredited by the Accreditation Commission for Education in Nursing (ACEN) and approved by the Ohio Board of Nursing (OBN)
