

For each course, please identify at least one assignment/artifact that could best assess at least one of the Core Abilities. This means it:

1) has a High Emphasis (though all Levels (1,2,3) could be used)

2) is unlikely to change (or make a point that the general framework of the artifact should not change), and

3) would work well as a juried assessment (see taskforce member with questions)

Below, provide details of that artifact:
