

NURSING

BACHELOR OF SCIENCE

About the Program

The bachelor of science in nursing (BSN) program is part of a 130-year tradition of excellence in nursing education at Aultman. The program combines classroom instruction; hands-on experiences in skills and simulation laboratories; and clinical placements in acute and long-term care settings to prepare you for the national licensing exam (NCLEX) to become a registered nurse (RN).

The Aultman Advantage

We have a "direct entry" BSN program, meaning students fully enter the program upon admission to the college. Other institutions require students to spend semesters as a "pre-nursing" major and then compete for a limited number of seats in order to finish the program and graduate.

Career Pathways

As an RN, you can work in a variety of clinical settings: hospitals, physician offices, clinics, surgery centers, and long-term care and rehabilitation facilities. Some nurses also choose to further their education to become nurse practitioners, nurse anesthetists, and nurse midwives.

Admission Requirements

First time college students may qualify for test optional admission with a minimum 3.2 high school GPA. Students with a minimum 3.0 high school GPA (or 660 GED) must also meet one of the following testing requirements: ACT 20, SAT 1030, or ACCUPLACER Next Gen scores of 250+ in Reading Comprehension and 263+ in Quantitative Reasoning, Algebra, and Statistics. Transfer students must have at least 6 completed college credit hours and a minimum 2.7 GPA based on their most recent college transcript.

Application Process

Interested students will need to submit a completed application online at aultmancollege.edu and submit official high school and college transcripts.

Full-time or part-time

Test Optional Admission

Direct-entry BSN program

Program admits fall, and spring semesters. Check our website for application deadlines.

Accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Ohio Board of Nursing (OBN)
