## ASSOCIATE OF SCIENCE

### About the Program

The associate of science in nursing (ASN) program is part of a 125-year tradition of excellence in nursing education at Aultman. The program combines classroom instruction; hands-on experiences in skills and simulation laboratories; and clinical placements in a variety of settings to prepare you for the national licensing exam (NCLEX) to become a registered nurse (RN).

### Career Pathways

As an RN, you can work in a variety of clinical settings: hospitals, physician offices, clinics, surgery centers, and long-term care and rehabilitation facilities.

The ASN curriculum design also provides for progression to our BSN Completion (BSN-C) program, which allows you to broaden your career opportunities and further your education to become a nurse anesthetist, nurse practitioner, nurse leader or educator.

### Admission Requirements

- Applicants with no other college/university credits must have a minimum 3.0 high school GPA (660 GED, a minimum 20 ACT (1030 SAT or ACCUPLACER Next Gen scores: Reading Comprehension of 250+ and a Quantitative Reasoning, Algebra and Statistics Score of 263+), and a minimum 58.7% composite TEAS (and 58.7% or higher on each of the four sections: reading, mathematics, science, and English).
- Transfer students must have 6 or more credit hours of college course work and a minimum GPA of 2.7 based on the most recent college transcript.

### Application Process

Interested students will need to submit a completed application online at [aultmancollege.edu](http://aultmancollege.edu) and submit official high school and college transcripts.
