

NURSING

BACHELOR OF SCIENCE

About the Program

The bachelor of science in nursing (BSN) program is part of a 125-year tradition of excellence in nursing education at Aultman. The program combines classroom instruction; hands-on experiences in skills and simulation laboratories; and clinical placements in acute and long-term care settings to prepare you for the national licensing exam (NCLEX) to become a registered nurse (RN).

The Aultman Advantage

We have a "direct entry" BSN program, meaning students fully enter the program upon admission to the college. Other institutions require students to spend semesters as a "pre-nursing" major and then compete for a limited number of seats in order to finish the program and graduate.

Career Pathways

As an RN, you can work in a variety of clinical settings: hospitals, physician offices, clinics, surgery centers, and long-term care and rehabilitation facilities. Some nurses also choose to further their education to become nurse practitioners, nurse anesthetists, and nurse midwives.

Admission Requirements

- Students who are attending college for the first time must have a minimum:
 - 3.2 or higher high school GPA for **TEST OPTIONAL**
 - 3.0 high school GPA (660 GED) and a minimum 20 ACT (1030 SAT or ACCUPLACER Next Gen scores: Reading Comprehension of 250+ and a Quantitative Reasoning, Algebra and Statistics Score of 263+).
- Transfer students must have 6 or more credit hours of college course work and a minimum GPA of 2.7 based on the most recent college transcript.

Application Process

Interested students will need to submit a completed application online at aultmancollege.edu and submit official high school and college transcripts.

Full-time or part-time

Test Optional Admission

Direct-entry BSN program

Program admits fall, and spring semesters. Check our website for application deadlines.

Accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Ohio Board of Nursing (OBN)
