BSN Completion - Program Effectiveness Data		
*Cohort Entry Total (n)**	*% Program Completion Rate***	*Job Placement Rate*¥
2013-14 (n=31)	74% (23/31)	100% (23/23)
2014-15 (n=21)	76% (16/21)	100% (16/16)
2015-16 (n=33)	79% (26/33)	100% (26/26)
2016-17 (n=13)	*TBD 2019-20*	
2017-18 (n=30)	*TBD 2020-21*	

* Number of students beginning the program minus exclusions, defined as students who have identified factors such as family obligations, relocation, financial barriers, or transfer to another institution of higher education.

** Percent of students completing in 150% of expected graduation time (i.e., 8 semesters). Goal is 70% or greater. TBD means the expected length of time has yet to be reached.

¥ Percent of graduates employed within twelve months after graduation. Goal is 70% or greater. Data based on one-year post-graduation alumni survey responses and/or personal contact with alumni. Employment areas include registered nurses (RNs) working in the acute care, long-term care, and health insurance companies.

Graduate and professional education degrees: BSN completion students reported enrolling in masters of science in nursing (MSN) in family nurse practitioner programs. (Data based on one-year post-graduation alumni survey responses, n = 3, as of May 2019)

Program data note: This is a post-licensure (RN to BSN) program that is not followed by a licensure exam.
