## AULTMAN COLLEGE BSW COURSE ASSESSMENT REPORT

Course Number/Name:			Semester:	Instructor:	Instructor:		FT PTAdjunct
The Bachelor of Social Work (BSW) Program is based upon nine (9) educational competencies modeled after the Council on Social Work Education's (CSWE) competencies used to evaluate undergraduate student preparedness for professional social work practice. The program competencies align with four college-wide Core Abilities, or General Learning Outcomes (GLOs). Each course is expected to contribute to student achievement of one or more of these competencies/GLOs. Core Ability Rubrics describe levels of success in student learning and behavior that instructors will measure and report on this form. In completing this report, instructors should attach the assignment descriptions, grading rubrics and submit to the BSW Program Director and the Institutional Research/Assessment Coordinator within a week of final grade submission each session.

\*II. Learning Activities= Assignments, tests, clinical evaluation tools, etc. \*\*III. Student Success Level Calculation Report the number of students who received a grade of C or higher on the assignment out of the total number of students who completed the assignment and the course. For example, 24 students received a C or higher on the assignment out of 28 students who completed the assignment and the course = 24/28 = 86%. Also note the number of non-completers (students who completed the course but not the assignment: e.g., 2/30 NC).
